I guess I have no choice. Let's wait to hear from Ed about HQI's availability and the Pirnie guys will have to schedule the meeting when HQI is available.

I am so pissed with the data transfer issue.

YOU will be going to this -- right? :) this meeting needs you ----
want me to send this along to MPI folks - or if you send it to them - I'd
suggest scott thompson/ed garvey to have check w/ their folks

Ed,
Earl is not available the week of Nov. 12 Mark D. is not available between
Nov. 14-19 The options to have the meeting are:
-either next week (probably too soon)
-the week of Nov 19 (Thanksgiving week, so not sure whether this is a good
idea) -the week of Nov 26 (note that there's a CARP conference on the 29)
What do you think? Can you check w/your folks so we can set a tentative date
with MPI?
